Sixty-sixth Legislative Assembly of North Dakota

SENATE BILL NO. 2344

Introduced by

Senators Unruh, Cook, Schaible

Representatives Kempenich, Porter

- 1 A BILL for an Act to create and enact section 47-31-09 of the North Dakota Century Code,
- 2 relating to injection or migration of substances into pore space; and to amend and reenact
- 3 sections 38-08-25, 38-11.1-01, and 38-11.1-03 of the North Dakota Century Code, relating to
- 4 pore space and oil and gas production.

5 BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

6 SECTION 1. AMENDMENT. Section 38-08-25 of the North Dakota Century Code is
7 amended and reenacted as follows:

8	38-08-25. Hydraulic fracturing <u>- StorageTemporary storage of natural gas and carbon</u>	
9	dioxide	<u>- Use of carbon dioxide</u> - Designated as acceptable recovery process processes.
10	<u>1.</u>	Notwithstanding any other provision of law, the legislative assembly designates
11		hydraulic fracturing, a mechanical method of increasing the permeability of rock to
12		increase the amount of oil and gas produced from the rock , an<u>;</u> the temporary
13		underground storage of natural gas; geologic storage of carbon dioxide; and the use of
14		carbon dioxide for enhanced recovery of oil, gas, and other minerals acceptable
15		recovery processes in this state.
16	<u>2.</u>	It is a valid exercise of the state's police powers to discourage the flaring of natural
17		gas without hindering the continued exploration and production of oil and gas
18		resources in the state. The temporary underground storage of natural gas is in the
19		public interest because underground storage promotes conservation of natural gas.
20	<u>3.</u>	It is in the public interest to promote the geologic storageuse of carbon dioxide to
21		benefit the state and the global environment by reducing greenhouse gas emissions,
22		to help ensure the viability of the state's coal and power industries, and to benefit the
23		state economy. Carbon dioxide is a potentially valuable commodity, and geologic
24		storage may increase increasing its availability is important for commercial, industrial,

Sixty-sixth Legislative Assembly

	Legisiat	Ne Assembly
1		or other uses, including enhanced recovery of oil, gas, and other minerals. Geologic
2		storage requires cooperative use of surface and subsurface property interests and
3		collaboration among property owners.
4	<u>4.</u>	It is in the public interest to encourage and authorize cycling, recycling, pressure
5		maintenance, secondary recovery operations, and enhanced recovery operations
6		utilizing carbon dioxide for the greatest possible economic recovery of oil and gas.
7	<u>5.</u>	It is in the public interest a person conducting operations authorized by the
8		commission under this chapter may to use as much of a subsurface geologic formation
9	1	as reasonably necessary to allow for the temporary storage of natural gas, unit
10		operations for enhanced oil recovery, geologic storage of carbon dioxide, utilization of
11		carbon dioxide for enhanced recovery of oil, gas, and other minerals, disposal
12		operations, or any other operation authorized by this chapter.
13	<u>6.</u>	Notwithstanding any other provision of law, a person conducting operations for
14		temporary storage of natural gas, unit operations for enhanced oil recovery, geologic-
15		storage of carbon dioxide, utilization of carbon dioxide for enhanced recovery of oil,
16		gas, and other minerals, disposal operations, or any other operation authorized by the
17	1	commission under this chapter may utilize subsurface geologic formations in the state
18		for the such operations or any other permissible purpose under this chapter. Any other
19		provision of law may not be construed to entitle the owner of a subsurface geologic
20	I	formation to prohibit or demand payment for the use of the formation for temporary
21		storage of natural gas, unit operations for enhanced oil recovery, geologic storage of
22		carbon dioxide, utilization of carbon dioxide for enhanced recovery of oil, gas, and
23		other minerals, or any other operation conducted under this chapter. As used in this
24		section, "subsurface geologic formation" means any cavity or void, whether natural or
25		artificially created, in a subsurface sedimentary stratum.
26	<u>7.</u>	The commission may adopt and enforce rules and orders to effectuate the purposes of
27		this section.
28	SECTION 2. AMENDMENT. Section 38-11.1-01 of the North Dakota Century Code is	
29	amended and reenacted as follows:	
30	38-11.1-01. Legislative findings.	
31	The legislative assembly finds the following:	

31 The legislative assembly finds the following:

Sixty-sixth Legislative Assembly

1.	It is necessary to exercise the police power of the state to protect the public welfare of	
	North Dakota which is largely dependent on agriculture and to protect the economic	
	well-being of individuals engaged in agricultural production, while at the same time	
	preserving and facilitating exploration for, and development of, oil and gas reserves in	
	this state so the greatest possible economic recovery of oil and gas might be obtained	
	including through the utilization of subsurface pore space in accordance with an	
	approved unitization or similar agreement, an oil and gas lease, or as otherwise	
	permitted by law.	
2.	Exploration for and development of oil and gas reserves in this state interferes with the	
	use, agricultural or otherwise, of the surface of certain land.	
3.	Owners of the surface estate and other persons should be justly compensated for	
	injury to their persons or property and interference with the use of their property	
	occasioned by oil and gas development.	
SECTION 3. AMENDMENT. Section 38-11.1-03 of the North Dakota Century Code is		
amended and reenacted as follows:		
38-11.1-03. Definitions.		
In this chapter, unless the context or subject matter otherwise requires:		
1.	"Agricultural production" means the production of any growing grass or crop attached	
	to the surface of the land, whether or not the grass or crop is to be sold commercially,	
	and the production of any farm animals, including farmed elk, whether or not the	
	animals are to be sold commercially.	
2.	"Drilling operations" means the drilling of an oil and gas well and the production and	
	completion operations ensuing from the drilling which require entry upon the surface	
	estate and which were commenced after June 30, 1979, and oil and gas geophysical	
	and seismograph exploration activities commenced after June 30, 1983.	
3.	"Land" means the solid material of earth, regardless of ingredients, but excludes pore	
	space.	
<u>4.</u>	"Mineral developer" means the person who acquires the mineral estate or lease for the	
	purpose of extracting or using the minerals for nonagricultural purposes.	
<u>4.5.</u>	"Mineral estate" means an estate in or ownership of all or part of the minerals	
	underlying a specified tract of land.	
	2. 3. SEC amende 38- In tr 1. 2. 3. <u>4.</u>	

Sixty-sixth Legislative Assembly

- 1 <u>5.6.</u> "Minerals" means oil and gas.
- 2 <u>7.</u> "Pore space" means a cavity or void, naturally or artificially created, in a subsurface
 3 sedimentary stratum.
- 6.8. "Surface estate" means an estate in or ownership of the surface of a particular tract of
 land.
- 6 7.9. "Surface owner" means any person who holds record title to the surface of the land as 7 an ownerestate on which a drilling operation occurs or is conducted.
- 8 SECTION 4. Section 47-31-09 of the North Dakota Century Code is created and enacted as
 9 follows:
- 10 <u>47-31-09. Injection of substances to facilitate production of oil, gas, or other</u>
- 11 minerals.
- 12 This chapter may not be construed to limit the rights or dominance of a mineral estate to
- 13 drill or recomplete a well under chapter 38-08. Injection or migration of substances into pore
- 14 space for disposal operations, for secondary or tertiary oil recovery operations, or otherwise to
- 15 <u>facilitate production of oil, gas, or other minerals is not unlawful and, by itself, does not</u>
- 16 <u>constitute trespass, nuisance, or other tort.</u>
