Testimony before Senate Industry and Business

January 23, 2023

Rob Pfennig, Chief Financial Officer

Bank of North Dakota

Mr. Chairman and members of the Committee. I am Rob Pfennig, Chief Financial Officer for Bank of North Dakota. I am here today to support Senate Bill 2233. If passed, this bill will remove the 3<sup>rd</sup> party audit requirement for the legislatively directed loan programs administered by the Bank. The essence of this bill is to save money and gain efficiencies while maintaining accuracy and accountability. This bill does not remove the audit requirement. What it does is allow for these loan programs to be audited by the State's Auditors Office as part of the State's Annual Comprehensive Financial Report. This is the same process followed by many state agencies and a few of the Bank's administered loan programs.

Currently the Bank has 17 individual financial statement audits per year, including the Bank's financial statements. This bill will enable BND to utilize the Auditor's office for 13 of the audits related to the legislatively directed loan programs administered by the Bank. This change will save an estimated \$160,000 a biennium related to audit costs. In addition, it will reduce man hours related to these audits by approximately 50 percent or 250 hours per year. As an example, one loan program, Addiction Counselor Internship loses money due to audit costs.

As these administered loan programs continue to be successful and grow it is important that we seek efficient and effective management of them while maintaining accuracy and accountability and I believe this bill does just that.

I appreciate your consideration of SB 2233 and will stand for any questions.

**Testimony for Senate Bill 2233**

Chairman Larsen and members of the committee my name is Lindsey Slappy. I am an audit manager for the State Auditor's Office. I am here to support Senate Bill 2233.

I have been working with the Bank of North Dakota on a new approach for the audits of the legislatively directed loan programs. The current law requires that the audits of the legislatively directed loan programs must be completed by a CPA firm. It does not give us the flexibility to complete these audits within our office. This is different than all the other state agencies. Our office does contract for audits of other state agencies but those are done at our discretion.

Our office does currently spend time on these legislatively directed audits. There would be some time built into the RFP process as well as the approval of each of the 13 reports. The private firms submit the reports to our office for review and approval prior to issuance. These reports are then incorporated into the Annual Comprehensive Financial Report (ACFR). I have provided an example of how the information is presented in the ACFR. Each of the individual loan programs can be found in their own column. The main difference is the information isn't contained within its own separate cover.

Under the new approach, the Bank of North Dakota would still prepare the financial information and submit it to the Office of Management and Budget to include in the ACFR. This information would then be included and subjected for audit in the audit of the ACFR. This would prevent loan funds that have as few as a single loan from needing an individual audit. There are a variety of required standards that must be followed if each loan fund is audited separately. Putting all of this information into the ACFR testing would help reduce auditing time. We would be able to build the activity into our current testing and still present the information in a way that you could see it by individual loan program. The auditing processes we would apply for these loan funds would be the same as those applied for the other state agencies.

The final component to the change is related to billing. Since the ACFR is really an audit for the Office of Management and Budget, we do not actually bill for the ACFR. This means the individual loan funds would not be paying for their audit services.

This concludes my testimony and I can answer any questions.

Loans "On Balance Sheet" in which BND participates with a Lead FI and takes the Risk / Reward that contributes to the earnings at the end of the year.

The funding for these loans is backed by the "Capital" of BND.

## Why "Off Balance Sheet"

- Established by the Legislature
- Long-term fixed interest rate at 2%.
- Provides for up to 30 / 40 Year Terms

## Procedurally:

- BND underwrites and administers loans
- Principal and interest returned to the funds
- BND receives a .50bp service fee
- Audits of the Funds

# Legislatively Directed Loan Programs

*BND administers 23 programs and \$904 million in assets for the Legislature*

- BND currently administers programs that serve a wide range of purposes, including school construction, water projects, general and medical infrastructure, and disaster recovery.

- \*Infrastructure Revolving Fund includes \$52 million to be transferred from BND's capital.

- \*\* HB 1187 created The Rebuilders Permanent Loan Fund (RPLF) during the 67<sup>th</sup> Legislative Session. This permanent revolving loan fund was established by transferring \$50 million in loans and cash from the Small Employer Loan Fund (SELF) created by BND during the Covid 19 pandemic to the RPLF.

- \*\*\*The Water Infrastructure Revolving Loan Fund was created by HB 1431. The Fund combined previously reported Community Water and State Water – Revolving Loan Fund.

**Testimony for Senate Bill 2233**

Chairman Larsen and members of the committee my name is Lindsey Slappy. I am an audit manager for the State Auditor's Office. I am here to support Senate Bill 2233.

I have been working with the Bank of North Dakota on a new approach for the audits of the legislatively directed loan programs. The current law requires that the audits of the legislatively directed loan programs must be completed by a CPA firm. It does not give us the flexibility to complete these audits within our office. This is different than all the other state agencies. Our office does contract for audits of other state agencies but those are done at our discretion.

Our office does currently spend time on these legislatively directed audits. There would be some time built into the RFP process as well as the approval of each of the 13 reports. The private firms submit the reports to our office for review and approval prior to issuance. These reports are then incorporated into the Annual Comprehensive Financial Report (ACFR). I have provided an example of how the information is presented in the ACFR. Each of the individual loan programs can be found in their own column. The main difference is the information isn't contained within its own separate cover.

Under the new approach, the Bank of North Dakota would still prepare the financial information and submit it to the Office of Management and Budget to include in the ACFR. This information would then be included and subjected for audit in the audit of the ACFR. This would prevent loan funds that have as few as a single loan from needing an individual audit. There are a variety of required standards that must be followed if each loan fund is audited separately. Putting all of this information into the ACFR testing would help reduce auditing time. We would be able to build the activity into our current testing and still present the information in a way that you could see it by individual loan program. The auditing processes we would apply for these loan funds would be the same as those applied for the other state agencies.

The final component to the change is related to billing. Since the ACFR is really an audit for the Office of Management and Budget, we do not actually bill for the ACFR. This means the individual loan funds would not be paying for their audit services.

This concludes my testimony and I can answer any questions.
